ESTABLISHED 1833. | WEDNESDAY, MAY 9, 1894. | PRICE TWO CENTS.

GLOVE DEPARTMENT.

Most persons know that in the manufacture of Silk Fabrics there is to much of the weighting process—that is by the introduction of Foreign substances, the weight of the original fabric is in many instances doubled. The material is much heavier but is sure to cut and weaken and prove unsatisfactory to the consumer, which reflects injuriously upon the seller. Three years ago we began to sell

Pure Dye Gloves and Mits,

which have given satisfaction to our trade.

ALLEN'S RESOLUTION.

Wants a Committee to Investigate the Arrest of Coxey.

Claims That the Affair Was an Outrage and Merits the Condemnation of the American People.

WASHINGTON, May 9.—Jacob S. Coxey, "general" of the Commonweal army, and his two lieutenants, Carl Browne and Christopher Columbus Jones, who were convicted in the police court yesterday, were in the lobby in the rear of the senate when that body met today, anticipating a further airing of their case in connection with the Allen resolution to investigate the alleged police clubbing on the capitol steps on May 1. The proceedings were opened with the regular routine morning business. On motion of Mr. Gray (dem.) a bill authorizing Rear Admiral Walker and Surgeon J. Rufus Tryone, of the navy to accept a decoration on the third class from the people of Venezuela for their humane service to the wounded and dying men in the recent Venezuelian war, as was also a bill to authorize the captain and crew of the saving station at Hog Island, Va., to accept a medal of honor from Spain for their heroic conduct in saving life from a wrecked Spanish vessel. Mr. Berry (democrat, Arkansas) allowed these bills to go through, but under protest. He insisted that nothing should be permitted to interfere with the tariff bill. The whole country, he said, including those who opposed as well as those who approved it, were anxious for action on the tariff. The present interminable delay was making the people lose all confidence and respect for the senate. At the conclusion of the morning business Mr. Allen (populist, Nebraska) called up his resolution for the appointment of a special committee to investigate the police interference with the Coxey demonstration on the capitol steps May 1st. Mr. Allen spoke with feeling. He had waited a week after the outrage occurred on the capital grounds before introducing his resolution, he said, expecting that one of the senators from Ohio, the state from which Mr. Coxey came, would take a step towards its investigation. Mr. Coxey came from the congressional district formerly represented by Governor McKinley. In his opinion such scenes as took place in the presence of 10,000 people on May 1st, on the plaza, in front of the capitol, should be investigated without delay.

There was an unusually large attendance of members of the house committee on labor at its meeting today drawn there by the expectation that "General" Coxey probably would be in attendance to speak on Representative McCann's resolution for the appointment of a joint committee of the senate and house to investigate the cause of the prevailing industrial depression. The general was early at the capitol in company with Colonel A. E. Redstone, of Washington. Mr. Coxey presented a petition from the Commonweal army that he and Carl Browne be permitted to address the committee on behalf of the Coxey bills for construction of good roads and for the issue of non-interest bearing bonds.

Coxey supplemented the reading of the petition with a brief statement and then answered questions put to him by members of the committee. "There are," he said, "billions of dollars' worth of improvements throughout the country to be made, and there are millions of men to make them. There is but one thing standing in the way, and that is money." The passage of his two bills would solve the industrial depression and set all men at work. He asked for 99 per cent. of the people the same privileges as are enjoyed by 1 per cent, the national banking class, who alone are represented in congress. Mr. Ryan (democrat, New York) pressed Mr. Coxey for proof of this assertion. "Have you any showing to make, any proof to offer that you represent ninety-nine per cent. of the people?" asked Mr. Ryan.

"No," said Coxey after thinking a moment, "I don't claim that."

This closed Coxey's hearing and the general retired. I. E. Dean, a member of the executive committee of the Farmers Alliance, followed with a recital of the depressed condition of labor.

PUSHED INTO ILLINOIS.

State Line an Important Feature in a West Hammond Case.

HAMMOND, Ind., May 9.—The Indiana-Illinois state line played an important part in an exciting matter here yesterday afternoon. Melena Barkofski, of Chicago, swore out a warrant for the arrest of Albert Sikorski, of West Hammond, Ill., charging him with being the father of her child. The arrest was effected by a Cook county constable and the prisoner brought across the line to be taken by rail to Chicago. Sikorski jumped through a saloon window and tried to escape. The officer's revolver brought him to bay when a deputy marshal appeared and arrested the Illinois official. Afterward, however, Sikorski was enticed to the state line, and by a little pushing sent into Illinois, where the released constable rearrested him and started overland to Riverdale with his prisoner, not venturing upon Indiana soil again.

INSANELY JEALOUS.

Shoots and Kills His Sweetheart, Then Attempts Suicide.

PITTSBURGH, Pa., May 1[illegible] [illegible]ert Woodley, a painter, shot a[illegible] Mrs. Jennie Buchanan, at [illegible] No. 45 Sturgeon street, Alleg[illegible] day and then attempted su[illegible] shooting himself in the head. The wound, however, is not thought to be fatal. The cause of the tragedy is a mystery, but is believed to have been jealously. Mrs. Buchanan is twenty-six years old and recently parted from her husband.

CONTESTING A WILL.

Murphy's Widow Says That He Was Insane,

Because He Bequeathed His Entire Estate to His Children and None to Her.

SAN FRANCISCO, May 9.—There is to be another Murphy will contest and it promises to rival in bitterness and sensational domestic revelations the one recently decided in Oakland. This time it is the will of Marquis Eugene K. L. Murphy, brother of Dan T. Murphy, Lady Charles Woolsley, Senor Dominguez and the Misses Fanny and Isabel Murphy, which is to be contested. His widow, who lives with her parents in Philadelphia, is to bring the contest and she will charge that he was insane.

Eugene Murphy was the eldest son of the late Daniel Murphy, of Murphy, Grant & Company, the great dry goods house. From his father he inherited the title of marquis and quite a large fortune. Under the Oakland decision he was to come in for one-seventh of his mother's estate. Since the decision, however, he died, leaving a widow and three children. The deceased bequeathed his entire estate, personal and real, to his three children, to be held in trust by his attorney and his brother Dan. To the widow he left only the household effects, appending a clause, stating that she is endowed with ample fortune of her own.

Marie B. Murphy has notified the courts here of her intention to contest the will. When the will is to be filed for probate no one seems to know. Eugene Murphy left an estate valued at $300,000. Now that the will of his mother has been broken, her heirs will come in for $100,000 of Eugene's share of the estate.

STOLE A TRAIN,

Did the Deserters From Galvin's Commonwealers.

The Whole Party Lodged in Jail Upon the Charge of Trespass—Randall Released from Jail.

PITTSBURGH, Pa., May 9.—The twenty-three members of company B, of Galvin's commonweal army who were arrested at Bissell, eighteen miles from here, at midnight, for attempting to capture a Baltimore and Ohio freight train, were held today on a charge of trespass preferred by the officials of the railway company. Colonel Galvin says the men were deserters and will be court martialled. They all gave Los Angeles as their address. Galvin's army is still at McKeesport, but will make an effort to get away before night.

At the hearing held later the entire company was sentenced to twenty days in jail. The remainder of the army left McKeesport on foot and marched to Elizabeth. Having failed to secure railway transportation, Colonel Galvin has decided to march his men over the national pike.

COLUMBUS, Ind., May 9.—Parties believed to be the advance guard of "General" Jennings' commonwealers, now in camp near Edinburgh, and who are to move on to this city tonight, broke into the general store of Charles Stine, of Edinburgh, last night and carried away $350 worth of fine guns. This has caused great excitement.

LAPORTE, Ind., May 9.—General Randall and his staff are still prisoners charged with that clause of the state statute which makes it unlawful to "bring paupers into the state." They are also charged with violating the orders of the board of health in crossing the line of quarantine. Many of the citizens sympathise with Randall and argue that it would have been better had the officers been less hasty in making the arrest. The two divisions of the "army" have patched up a truce, and are now camping in a beautiful grove a mile east of the city. The camp is surrounded by a picket of commonwealers and no one is allowed to pass out or in the enclosure without proper authority. They have plenty of provisions, but no medicine, and many of the "soldiers" are sick. They refuse to move until their commander and his lieutenants are released.

RANDALL RELEASED.

LAPORTE, Ind., May 9—3 P. M.—The General Randall and Staff were released from custody this afternoon and discharged on signing an agreement to break camp and get out of the county as soon as possible.

HOTEL MEN.

They Are Out on a Pleasure Tour at Denver.

DENVER, Col., May 9.—The visiting hotel men and their families were shown the sights in Denver today, being taken around the city in carriages and special trains of street cars. The United States Hotel association, a business organization of hotel proprietors and managers, in which fifteen states are represented, is holding its annual convention today. President D. C. Shears, of Cincinnati, occupied the chair.

Shot His Mother-in-Law.

WHITE PLAINS, N. Y., May 9.—Mrs. William Gilling was fatally shot this morning by her son-in-law [illegible] her home [illegible] Central Boulevard [illegible]brough, [illegible] Gilling was sho[illegible]es.

TROUBLE AT AKRON.

Americans and Italians Arrayed Against Each Other.

The Ohio National Guards Summoned to the Scene and a Bloody Fight is Expected.

AKRON, Ohio, May 9.—The striking street laborers assembled today and marched to Exchange street, where the foreigners who took their places were working on the street improvements, and attempted to drive them away. The foreigners, most of whom are Italians, refused to leave, and at 2 p. m. trouble seemed imminent. All the available police are being hurried to the scene of trouble in patrol wagons. Battery F, of the light artillery, Ohio National guards, is now assembling, and the mayor has also issued a call to company B, of the Eighth artillery, to assemble at their quarters.

TOOK THE WHOLE ROAD

Industrials Assume Charge of the Missouri Pacific.

Superintendent Derby Tries to Stop the Train Load of Commonwealers, But Makes a Failure.

PUEBLO, Colo., May 9.—Sander's Cripple Creek industrials who seized a train here last night and started east on the Missouri Pacific railroad, succeeded in getting around the obstruction near Olney, caused by ditching an engine and box car in a cut, and returned their journey eastward about 3:30 a. m. Superintendent Derby, when notified by wire that the train seizure were again in motion, ordered four engines, which had been awaiting developments at Arlington, thirty five miles from here, to go east as rapidly as possible. He also ordered another locomotive to be ditched near Haswell, which is beyond Arlington. Not a train except the stolen one is now running on the Missouri Pacific and Colorado. The tank at Ordway, ten miles beyond Olney, has been emptied and water for the locomotive can only be secured from wells. It is thought likely that the engine will run dry before the new obstruction is reached. No little anxiety was felt when it was learned that the track around the engine was completed, lest the industrials should cut the telegraph wires, but the train went through without any molestation of the wires. It will be almost impossible to pursue the army from this direction since, to hold their tracks around the ditches, they have taken up 100 feet of rail. United States Marshal Jones in Denver has been advised of the interference with the movement of the mails and counsel for the Missouri Pacific in Denver has been instructed to apply to the federal court for an injunction to prevent further interference by Sanders and his men.

The Coxeyites' stolen train encountered another obstruction near Arlington, forty miles east of this city, where four engines were ditched by order of Superintendent Derby. The industrials promptly began laying tracks around this obstruction. Sheriff Moses endeavored to raise a posse to capture Sanders and his army, but could not secure more than forty men. The railroad authorities communicated with Judge Hallett, at Denver, in regard to securing federal aid.

At Ordway the water in the stolen engine gave out and the "Industrials" were obliged to obtain a supply from a well, carrying it in their dinner pails coffee cups.

The Industrials finally got beyond the Haswell wreck and again started east. Another engine was ditched to stop them at Diston, 119 miles from Pueblo.

SAN BERNARDINO, Cal., May 9.—Col. Vinette, of the second Los Angeles regiment of the commonweal and his seven comrades were taken before Justice Knox on a complaint charging them with attempting to evade the payment of railroad fares and they were held to answer, bail being fixed at $100 each, in default of which they were remanded to the custody of the sheriff. The company is going to pieces.

TACOMA, Wash., May 9.—Superintendent McCabe, of the Northern Pacific, says all the commonwealers are now east of the Cascade mountains. They were not allowed to go through the tunnel and walked over the mountains. Trains are running regularly. The charge that the employe of the company at Puyallup assisted the commonwealers to get away in box cars have not been disproved, but no employe has been discharged thereon on account of any connection with the commonwealers.

JUVENILE FIGHTERS.

Pummel Each Other for Fourteen Rounds.

CHICAGO, May 9.—Two ten-year-old prize fighters, with their fathers as seconds, were arrested today for engaging in a fierce ring battle. The boys, James Kelley and John Dewey, fought fourteen hot rounds in a grove at Vincennes avenue and Eighty-second street before a good sized crowd last night, were seconded and urged by their fathers. The principals and their parental seconds were heavily fined.

ANARCHIST OUTRAGE,

Resulting in Loss of Life—One Killed and Three Injured.

ALGIERS, May 9.—A supposed anarchist outrage, resulting in loss of life, was committed here today. A hotel owned by a man named Torti was blown up. One person was killed and three people were injured by the explosion. Torti, the landlord, recently testified against some anarchists who were on trial at Toulon.

MUST DISBAND.

District Health Officers Declare Coxey's Camp a Nuisance and Order an Abatement in Forty-eight Hours.

WASHINGTON, May 9.—The district health officers have decided the Coxey camp to be a nuisance and dangerous to health. The district commissioners have given Coxey and his followers forty-eight hours "to abate the nuisance." This doubtless means that they must break camp within that time.

DESPERATE ATTACK

Made by Striking Miners on Gen'd Arms,

Who Opened Fire and Nine Rioters Were Killed and Twenty Wounded.

TROPPAU, Austrian Silesia, May 9.—Striking miners made a desperate attack today upon a detachment of gen d'arms who were guarding a colliery in Polisu Ostrau, with the object of driving away the men who were at work.

Many thousands of miners are on a strike in the district in Silesia, and a number of them have openly defied the authorities upon several occasions. The body of miners referred to marched upon the colliery carrying weapons of various descriptions, though heavy sticks predominated. Upon arriving at the colliery it was found that the buildings and pit entrances were guarded by a strong detachment of gen d'arms.

The rioters were warned to disperse but instead of doing so, they began pelting the police officers with stones, wounding a number of them. Finally the leaders of the mob became bolder and persuaded the strikers to make a rust upon the police, expecting to drive them from the positions which they occupied.

The gen d' arms, after a last warning, opened fire upon the rioters, killing nine of them and wounding twenty others. The rest then fled in all directions, threatening, however, to return in larger numbers and avenge the death of their comrades. The gen d' arms are being reinforced and no further trouble is anticipated at that particular point.

STRIKES AND RIOTS.

Four Farm Hill Workmen Badly Beaten.

The Coal Supply Running Short in Baltimore—Chicago Painters Closing in on the Bosses.

UNIONTOWN, Pa., May 9.—A battle occurred at the Hill Farm works, north of here, at daylight, in which about twenty-five shots were fired by deputies, but no one was injured by bullets, but four workmen were badly beaten by the strikers, one of them, Richard Harbarger, it is thought, being fatally injured. About 6 o'clock, as Harbarger and three companions were going to work, they were met by a delegation of forty strikers, who notified them that an attempt to go farther would be fatal. Harbarger argued with the men, but they would not give in. The deputies were not yet on guard to protect the workmen, so the strikers fell on them with clubs and beat them in a most brutal manner. Harbarger was beaten into insensibility and would have been killed had not the deputies arrived on the scene. They got their winchesters and started to take a hand in the affray. The strikers would not move and the deputies opened fire on them from the yards. When the bullets began whistling by their heads they left their victims and fled toward Dunbar. At least twenty five shots were fired, none of which took effect owing to the distance. Several shots were returned by the strikers, but they were not well enough armed to stand their ground. Harbarger is in a critical condition and there is little hopes of his recovery. The others were badly cut and bruised, but their injuries are not of a serious nature.

BALTIMORE, Md., May 9.—The coal strikers threaten to interfere with industries in this section. If the mines are not worked for a considerable time the injury to business here may be great, as the supply of coal in Baltimore is said to be limited. The Baltimore and Ohio railroad company has put an embargo on all the coal on its tracks between Baltimore and Cumberland, refusing to deliver any coal to consignees. The road will take the coal to hold for its own use in emergency, if its supply should run so short as to threaten a stoppage of trains.

CHICAGO, May 9.—The striking painters of this city have organized a bicycle brigade of thirty wheels to use in hunting down non-union painters. The walking delegates will hereafter ride. The jobs on which the non-union men are at work are scattered about residence and suburban districts. To obviate the difficulty of following them up the wheels are being pressed into service.

General Trumbull Dead.

CHICAGO, May 9.—General M. M. Trumbull, a veteran of the Mexican and civil wars, died at his home here today. He was a writer of note on sociological and philosophical subjects.

MADAME SYLVERS.

The Well-known Fortune Teller Has Become Insane.

Imagines Her Power Has Departed From Her—Other Hallucinations—Court News.

Helen Sylvers, the well known fortune teller living at 99 Montgomery street, was adjudged insane this morning by a commission in lunacy consisting of Drs. Van Buskirk and Hetrick and Justices France and Tancey.

For many years Mrs. Sylvers has been a fortune teller and a clairvoyant, claiming to be able to tell the past and future of persons and also to call departed spirits, and hundred of persons have consulted her and from the big business which she carried on in both her fortune telling and spiritual business she has made a great deal of money.

Within the last month or so she has become mentally deranged, talks without any sense whatever and walks the floor continuously. She imagines that she was forced against her will to eat oranges and that in that way her fortune telling and spiritualistic powers departed from her. She also thinks that some one wearing a false face is after her in order to arrest her for some crime she has committed, and that she brings sickness to every person who visits her.

One of her hallucinations is that she is in some way responsible for the death of the late mayor and that she has important business relations with two of the prominent lawyers of the city.

She will be sent to the insane asylum.

Henry Billen, an incorrigible youth, living on Wells street, in Bloomingdale, was arrested this morning by the sheriff and will be taken to the reform school.

Justice France, acting as mayor, this morning fined Wm. Brooks $1 and cost for drunkenness.

Edward Domte and Anna Hamm, Chas. H. Smeltzer and Isabella Swahlen, John McCague and Eliza Smiltey, John Stevens and Mary Hays, have been licensed to wed.

The board of commissioners will meet Friday to arrange for the special railroad election. They estimate that the election will cost $2,500, and the money will be deposited by the railroad company. The voting will be under the Australian system.

Mr. S. B. Bond has platted his suburban homestead, Beechwood, on Fairfield avenue, into forty-three lots, and the property will be placed on the market. He reserves a big block of land for his beautiful home, and it will be reached by Vermillion avenue. Mrs. L. A. Bond has also platted her homestead, Walnut Place, into thirty-two lots, reserving for her handsome home a square plat of ground, reached by Pearoe avenue, which penetrates the land.

CANADIAN OUTRAGE.

Americans Seized While Fishing in Lake Erie.

Their Yachts, Valued at $17,000 and $18,000 Respectively, Confiscated and the Captains Under Arrest.

TOLEDO, Ohio, May 9.—There is considerable excitement over the seizure of two American pleasure vessels in Canadian waters yesterday for violation of the dominion fishing laws. There were about fifty gentlemen on board the two vessels. One party was from Cincinnati, headed by Mr. Peebles, the wealthy grocer of that city, and the other from Dayton, headed by Mr. King. They are the Cincinnati Fishing club, which has resorted hither for the past seventeen years in the black bass season. The party were released, but the two boats were taken to Amherstburg, Ont., with their captains, where it is the evident intention of the authorities to confiscate them. The Visitor, of Put-in-Bay, is a new boat valued at $17,000. The Lory Brooke is owned by Count Rehberg, of Middle Bass, and is valued at $18,000. Count Rehberg commanded his own boat, and he and Captain Hass, of the Visitor, have appealed to the dominion government at Ottawa. The charge is a violation of the Dos law, by fishing without a license. An effort will be made to have the Washington government take up the outrage and demand satisfaction.

WINDSOR, Ont., May 9.—Later information regarding the seizure of two American yachts by the Canadian revenue cutter Petrel yesterday shows that forty eight guests of the Dayton Peleo club were captured. The club is a wealthy social organization and among the guests were Mayor Kelly, of Springfield, Ohio; Harvey King, of Dayton, and Joseph Peebles, of Cincinnati. They were cruising in yachts but had left them and were fishing in nineteen small boats. The Petrel seized all the boats and overhauled two of the yachts. The charges are fishing without permits, during the close of the season. Bass were found in each of the small boats. The yachts and crews were still at Amherstburg and the owners are also there awaiting developments, although all but the crews have been released from custody. The authorities at Ottawa have been notified of the situation. The other members of the club have been taken of the Peleo Island by the yacht American Eagle.

Congressman Named.

LITCHFIELD, Ill., May 8.—The democratic convention of the Eighteenth congressional district, has nominated Congressman Edward E. Lane as his own successor. Prickett, of Madison county, the only other candidate, withdrew before the balloting began.

KELLY'S FLOTILLA

Starts on Its Long and Perilous Journey.

The Sailors Frequently Compelled to Get Out of the Boats and Pull Them Over the Sandbars.

DES MOINES, Iowa, May 9.—The Kelly army fleet got under way today and at noon bid good bye to Des Moines from the packing house two miles south of the city, the boats halting altogether during the good bye cheers. Most of the boats in the fleet were rigged with oars or sailing gear and sails were improvised from army blankets. Commodore Kelly expected to reach Runnells, twenty miles away, tonight. The men were in good spirits and seemed glad to begin their cruise. Because of the numerous sand bars the men were frequently compelled to wade and push the boats. The men have ample provisions for several days and the towns along the route are preparing to contribute liberally. "Professor" King led the flotilla on his aquatic bicycle. The start was witnessed by a large crowd.

Kelly's boats were soon strung along the river for five miles and made slow progress. One boat with ten army men and a number of DesMoines women and children capsized and all narrowly escaped drowning. Fully two thousand people straggled along the banks watching the flotilla. Women and children from this city were in nearly every boat at the start, taking a short pleasure ride.

YOUNG BURGLAR.

A Wealthy Distiller's Son Arrested at Peoria.

PEORIA, Ill., May 9.—There was a great sensation here today when it was learned that Julius Schwabacher, son of Henry Schwabacher, the wealthy distiller, had been arrested at an early hour in the act of burglarizing the house of one of his neighbors. The only explanation for the crime is that the young man had been gambling and was afraid to tell his father of his losses. It has been reported that he lost $900 and all his jewelry in a game at Toluca last night. Young Schwabacher denied the crime, stating that he had gotten into the house by mistake.

LOCAL NEWS.

R. L. Romy last Eaton, Ind., today.

Dr. Hetrick vaccinated four tramps this morning.

There was one plain drunk at police court this morning.

Born, to William Lopshire and wife, of No. 22 LaSalle street—a girl.

William Hookman, United States mail agent, is in the city today.

Everything is quiet about the city hall today and no appointments have been made.

A. L. Schneider, of Van Wert, Ohio, who has been the guest of Miss Bassett, has returned home.

Dr. D. O. Woolpert, formerly of this city, is preparing to enter the newspaper business at Elkhart. He will commence the publication of a republican daily paper as soon as the necessary arrangements can be made.

Yesterday, about noon, David E. Miller shot a horned owl on the Beaver Dam stock farm, owned by W. S. Vought, located about seven miles southwest of this city. The owl measured six feet from tip to tip of wings.

The result of the base ball games played yesterday is as follows: At Pittsburg, Pittsburg, 6; Cincinnati, 5. At Cleveland, Cleveland, 18; Chicago, 3. At Louisville, Louisville, 4; St. Louis, 5. At New York, New York, 16; Boston 7. At Philadelphia, Philadelphia, 18; Brooklyn, 5. At Baltimore, Baltimore, 11; Washington, 5.

The Allen County Medical association held a secret meeting last night and talked over the matter of Drs. Dinnen and Myers, who, it seems, have fallen under the ban of the association for placing a small pox patient in the Hope hospital. Nothing definite was accomplished, however, and the matter will come up again at the next meeting.

Contractor's Notice.

Bids will be received at the office of the Tri-State Building and Loan association on the 19th day of May, 1894, at 10 o'clock a. m. for the construction of a three-story business block on lot No. 100, O. P., city of Fort Wayne, according to plans and specifications now on file with Alfred Grindle, architect, bids to be in the form required by architect and to be accompanied by a certified check for $500.00 to be forfeited by successful bidder if he fails to enter into proper contract. Right reserved to reject any and all bids.

916 A. GRINDLE, Architect.

This afternoon we receive fresh shipment of Tennessee Berries, down to 12½c quart.

Fresh Ripe Tomatoes, 15c.

And Vegetables of all kinds.

FRUIT HOUSE.

Miss Anna Philley and her class will give an entertainment at the Baptist Tabernacle Friday night, May 11, for the benefit of the Boys' Brigade. Admission ten cents. 9t2

Tomorrow is the last day to pay your Natural Gas bills. Pay promptly and save the discount.

A NEW DEAL.

Insurance Rates to be Controlled by Commissioners.

An Entirely New Adjustment Adopted for Fort Wayne, Increasing the Rates in Many Instances.

During the last few weeks many of our people may have noticed two gentlemen going about the streets of the city with books and parcels looking up at the buildings and examining their surroundings. These two gentlemen are what is known as insurance inspectors, and they have just completed an inspection of all the buildings in Fort Wayne and made an insurance rate that will control all companies doing business in the city and will be in force for a number of years.

The rates have been made upon a schedule that has been adopted over the entire United States, and Fort Wayne comes under the head of first-class, on account of the paved streets and fire and police protection.

The basis of the rates adopted on mercantile buildings is fifty cents per hundred, to which is added for deficiency of thickness of walls, for frame sky lights, openings into adjoining buildings and for exposures and occupancy, so that each building is rated upon its own merits. Only one building in Fort Wayne came under the standard of the fifty cent rate and that was the Old National bank building. The increase in mercantile risks is from ten to twenty per cent.

Dwelling houses are rated at fifty cents per hundred on brick and slate roofs, fifty-five cents on brick and shingle roofs, and sixty cents on frame dwellings. This is an increase of about 20 per cent.

The rates on barns have been very materially increased, being raised from 75 to 100 per cent., so that people who have no use for barns had better have them taken down and sow grass seed in the back part of their lots, which does not require either insurance or lightning rods. The rate agreed on for barns is 75, 85 and 100 cents.

For three years twice this rate and for five years three times this rate is charged on both houses and barns.

The insurance men say the new schedule of rates is made on account of the very heavy losses by fire all over the country and to induce better construction of buildings, which very materially reduces the hazard. These new rates took effect last Monday.

A BUSY DAY

Will Next Saturday be for Sunday School Workers,

When a Canvass of the City Will be Made for New Scholars—Receive the Visitors Kindly.

Saturday will be a busy day in Fort Wayne among the Sunday school workers. Almost 300 ladies and gentlemen will be engaged in a house-to-house canvass of the city for Sunday school scholars. It is to be hoped that every person will kindly receive them and answer their questions. They are doing the work without pay and have agreed to make the canvass, rain or shine. Their sole object is to try and get the many children in our city who do not go to Sunday school into the schools so that they may be benefitted and be brought up to become useful and earnest Christian men and women. The following rules have been adopted for the canvassers:

Understand as thoroughly as possible the work expected of you before you begin.

Let your dress and address recommend your religion.

Ascertain, if possible, the name of the family residing in the house before calling.

Use the utmost skill in your speech, remember that love alone wins.

As you enter, breathe a silent prayer for Christ's presence and help.

Write plainly. Miss no one. Get accurate information. Leave one invitation card for each person.

Include all hired help and boarders, but under their own respective names, and on separate blanks.

Under "Remarks" note reasons for non-attendance, etc., state in one word.

Complete your work as soon as possible and report to your chairman.

Remember, the object of this co operative and thorough canvass is not so much to do the work, as to point out to churches and Sunday schools the work to be done afterward.

Miss Anna Philley and her class will give an entertainment at the Baptist Tabernacle Friday night, May 11, for the benefit of the Boys Brigade. Admission ten cents. 9t2

LOCAL LINES.

C. L. Mong and wife, of Elkhart, were guests of the Rich yesterday.

Mr. and Mrs. H. J. Myer, of West Washington street, pleasantly celebrated the fourth anniversary of their wedding Monday evening.

Miss T. Parnin, teacher of the Stork school, in Aboite township, was the guest of Miss Austin, of 150 Fulton street, last Saturday and Sunday.

Miss Jennie Walters pleasantly entertained a few friends this afternoon at her home on West Creighton avenue, in honor of her birthday anniversary.

The ladies of the Third Presbyterian church will be entertained with a social tea by Mrs. John Donovan tomorrow afternoon at her home, 20 West Williams street.

A pleasant surprise was tendered Mr. Ed. Tancey at his home, 138 Fulton street last evening. The hours were merrily spent in dancing and card playing. Luncheon was served at a late hour. About thirty six guests were in attendance.

G. W. EDGERTON HURT.

He Was Unable to Take a Step Last Evening.

A Runaway Team Crashes Into His Bicycle, Throwing Him to the Ground—Other Casualties.

C. W. Edgerton, the well known bicycle dealer, met with a serious accident yesterday afternoon which will lay him up for a long time.

Mr. Edgerton was riding a wheel on West Main street about a square west of his bicycle establishment. A farmer's team became frightened and dashed down the street at break neck speed. Mr. Edgerton made an effort to get out of the way, but was not quick enough. The hind wheel of his bicycle was struck by the runaway and Mr. Edgerton thrown to the hard pavement with fearful force. His wheel was badly wrecked and he was picked up in an unconscious condition and carried to his home on West Wayne street. He is now under the care of a physician and trained nurse and is unable to take a step. His injuries are mostly about the hips and are quite serious.

OTHER CASUALTIES

George Townsend, a young man living with Mr. Sam Spice, was thrown from the top of a loaded wagon yesterday and sustained several bruises, and a broken foot which will lay him up for some time to come. The accident occurred on the road to the driving park.

Marcus, the six-year old son of Mr. and Mrs. Harry McMullen, of Bloomingdale while playing at the Franklin school, met with a serious accident yesterday. He was imitating older boys who were jumping over some high seats. The lad fell and two of his upper teeth cut through his lip in a shocking manner. Dr. Stulz dressed the wound.

CHURCH MEETING.

Congregational Ministers in Session at Plymouth Church.

Nine Years Since They Met in This City—Many Notable Church Workers in Attendance.

At the Plymouth Congregational church in this city the thirty-sixth annual meeting of the general association of Congregational churches and ministers of Indiana is in session this week.

Nearly one hundred delegates and ministers are here and much activity and enthusiasm prevails. Prominent Congregational ministers and church workers from all over, the state are present and several clergymen from cities outside are in attendance or will be here before the session closes.

Among the notable ministers who are taking part in the present meeting may be mentioned the Rev. L. H. Cobb, D. D., of New York city; the Rev. Dr. Hyde and the Rev. F. E. Dewhurst, of Indianapolis; the Rev. W. E. C. Wright and the Rev. T. Y. Gardner, of Cleveland; the Rev. W. F. McMillen and the Rev. A. N. Hitchcock, of Chicago.

Yesterday afternoon the Indiana branch of the Woman's Foreign Missionary society held its inaugural meeting of the session. Reports were submitted, addresses delivered and the time spent in getting ready for work and becoming acquainted. Last evening the church was comfortably filled by members of the congregation and delegates. The exercises opened with a song from the Linden quartette, after which it was announced that Rev. Townsend, of Whiting, Ind., would have charge of the devotional exercises. After scriptural reading and prayer the welcome address was delivered by Rev. Ainslie. He said that it had been nine years since the state meeting had been held in Fort Wayne, but since that date a great change had taken place in the condition of the congregation in this city. He then went on to show the visitors the many good points in the new church building and concluded by assuring the delegates of a hearty welcome.

Rev. John R. Wilson, of the Mayflower church, Indianapolis was chosen moderator, and made a few appropriate remarks. He was followed by Rev. F. E. Dewhurst, of Indianapolis, who delivered the annual sermon. He chose his text from the sixty-third chapter of the Prophet Isaiah, and the sermon which followed was as fine a discourse as has been listened to in this city for many a day. It was scholarly, poetic, and at the same time logical and forcible. The speaker contrasted the two theories of the problem of existence—pessimistic and optimistic.

Dr. Cobb, of New York, secretary of the Church Extension society, followed with an eminently practical address in which he gave a number of illustrations of the manner in which struggling congregations had been helped to erect edifices.

BICYCLES AT AUCTION.

Sale commences Saturday morning at 10 o'clock. New and second hand wheels, including ladies' and children's wheels.

H. T. STAPLEFORD, Auctioneer.

Strawberries received this afternoon, 11c a quart.

Potatoes, 85c a bushel.

Will Be Gloriously Celebrated.

THE SENTINEL has at different times urged upon the citizens of Fort Wayne the propriety and importance of making some arrangements for a fitting celebration of the centennial anniversary of the completion of the building of the old fort in this city, which occurs in October next, and it is therefore glad to note the introduction of a resolution to that effect in the city council last night by Mr. John Mohr, jr., and its unanimous approval by the other members of that body.

It was a graceful, fitting and appropriate act, for the completion of the old fort was one of the most important events in the history of Fort Wayne, and to have allowed its one hundredth anniversary to have passed without a fitting celebration would have been unpardonable in these Columbian times of centennial anniversaries, but Mr. Mohr's resolution has given it tangible shape and now, with the city council's influence back of the movement, our citizens will respond to the suggestion and the anniversary will, without doubt, be appropriately celebrated.

It will occur on the 22nd day of October, and to impress upon the minds of our readers something in regard to its importance, we will be pardoned, in this connection, for speaking briefly of the history leading directly to it.

On the 17th day of September, 1794, Gen. Anthony Wayne and his army arrived at the spot on which this city now stands and, after fortifying his camps and reconnoitering the ground, he determined to build, at the junction of St. Mary's and St. Joseph's rivers a military garrison. The work of its erection began one week afterwards and was completed on the 22nd day of October, 1794. He gave it the name of Fort Wayne and, leaving Lieutenant Colonel Hamtramck in command, he departed from the garrison with his army.

Then began a new era in the history of the civilization of the great northwest. From a military garrison, surrounded on all sides by forests and Indians and wild beasts, Fort Wayne grew to a village, then to a town, then to a city, until, after a century has elapsed, it is the metropolis of Northern Indiana and one of the principal cities in the west—one hundred years of active, stirring, busy, wonderful history. Few cities can boast of such a record.

Let us then make the 22nd of October, 1894, a great holiday, a red letter day, the greatest day in all our city's history, one that will witness a celebration which will eclipse any ever held here, one that will be commemorated by every citizen, one that will be illustrative of our progress and business prosperity, one that will long be remembered, one that will be an honor to Fort Wayne. It will be the first of Fort Wayne's centennial celebrations, and it should be observed in a grand manner. Let the eagle scream on that day gloriously.

GET ready for the city's centennial celebration.

FORT WAYNE does not want a visit from the Commonweal army.

FORT WAYNE now has only fifteen city dads—five less than we had last year.

CANDIDATES for county offices are now getting a sort of extraordinary hustle on themselves.

FORT WAYNE has started off under the new charter and all its provisions will soon be in force.

THE midsummer meeting of the Democratic Editorial association of Indiana occurs this year at West Baden Springs, June 8 and 9.

THERE were 179 business failures last week—201 the week before—against 248 the current week of last year. This shows a little improvement.

MAYOR OAKLEY, in his appointment of councilmanic committees, honored three of the democratic councilmen-at-large with chairmanships. John Mohr, jr., was made chairman of the committee on fees and salaries, Emmett H. McDonald chairman of committee on education, and Charles Griebel chairman of the committee on street lights.

IT is said that Mark Twain takes the failure of his publishing house much to heart. While he is a man of considerable property all his available money was invested in the firm. The failure was more of a shock to him and more of a surprise than to the book trade generally, who understood the condition of the literary market.

BUT three men who were elected to the forty-sixth congress are in the present. One of these, Thomas Updegraff, of Iowa, is now serving his third term, while Benton McMillin, of Tennessee, the great "tariff reformer," has served continuously as a member of that body since his first election sixteen years ago. The other one of this trio is Congressman Hatch, of Missouri, of anti-option fame.

EX-GOV. ANDREW G. CURTIN, the war governor of Pennsylvania, who is now in his seventy-eighth year, looks back on a political career of unusual length. As long ago as 1838 he had won reputation as a public speaker, and in 1848 he was one of the presidential electors on the Zachary Taylor ticket. His influence in bringing about the nomination of Abraham Lincoln, and his distinguished services during the war, are well known. The ex-governor is often seen in Philadelphia, but his health of late has given his friends some concern.

The Coal Strike.

The great coal strike of England involved no less than 400,000 persons, directly and indirectly, and lasted nearly a year. It was the greatest strike in the history of the world, both in numbers and subsequent effects. It forced itself on the attention of the British government, and public officials high in rank at length came forward and arbitrated the differences between employers and miners. It has been claimed that the British coal strike inaugurated a new economic principle connected with the labor question. Hitherto, when the price of a product fell below profitable rates, it has been the custom of employers to recoup themselves by cutting down the wages of those who make the product.

Against this custom, among other things, the British coal miners struck. Their contention was that producers should always receive living wages for their work, whatever the price of the product should be. If such price was not profitable, then manufacturers should combine to keep it up or to lessen operating expenses in other ways than by cutting workmen's wages. The coal miners of England claim that the living wage doctrine was established by the outcome of the great strike.

The American strike was against a proposed reduction of wages in the soft coal mining districts and for a uniform rate of wages throughout those districts. It was ordered at the national convention of the United Mine Workers April 10. It began at noon Saturday, April 21, and a few days afterward not less than 140,000 miners of bituminous coal were out. The intention from the beginning was to make this the greatest single strike that was ever on in America. It can hardly assume the dimensions the British strike did, for American coal miners are not so well organized as those of Great Britain were.

The bituminous coal regions of this country are found chiefly in Pennsylvania, Ohio, Indiana, Illinois, Missouri, Kansas, Alabama, Tennessee, Kentucky, Virginia, West Virginia and Maryland. The far western districts are in Washington, Wyoming, Colorado and Indian Territory. The strike began in Pennsylvania and Ohio and spread westward. The headquarters of the United Mine Workers are at Columbus, O., where the president, John McBride, lives. Mr. McBride was formerly a member of the Ohio legislature.

The organizers of the strike calculated that 3,000 mines in various parts of the United States would shut down. Ohio alone contains 800 of these mines. The price paid for mining coal was, in January, 45 cents per ton. The operators cut it down to 40 cents, then again, early in April, to 35 cents. This was the immediate cause of the strike. The visible supply of coal on hand in the region supplied by the Ohio river is probably enough to last till fall. It is different, however, in places supplied by railroad, where there is not more than a month's supply; in some cases not that. For the first time the river and railroad coal miners struck together.

In the south the convict labor could readily take the place of the striking white miners if permitted to do so. The presence of such persons trouble would naturally be in the south in case a strike became general there.

A peculiar situation is produced by the fact that a part of the operators conceded the miners' claim and... willing to have coal at the old rate, but they were opposed by a determined number who not only insisted on the cut, but ... their lower priced coal in competition with that of the employers ... wages, all.

A feature of the strike was that a number of the coke workers who at first were not expected to join in the strike did so. The organizers of it ... if an attempt should be made to substitute anthracite for bituminous coal on railroads and in factories the anthracite miners would go out too.

It is not worth while to expend any more enthusiasm over new or old vessels of the American navy at present. So far as they have been closely examined almost every one of the later ones has been found to possess serious defects, from the little gunboat Machias to the great crack cruiser New York. This added to the armor plate frauds, is enough to throw a wet blanket on any patriotic pride an American may desire to indulge in regard to our navy evolution. The less said of it the better.

There is a three cornered political situation in Great Britain that is interesting. The Irish, the Liberals and the Tories stand facing one another. The Irish hold the balance of power. If the Liberals are slow about coming forward with home rule, it may even be that the Irish can toy with the Tories and gain their point. The Tories are naturally so anxious to get back into power that they might promise home rule to Ireland for the sake of returning.

The rule passed by the house of representatives to enable it to proceed with business by counting in a quorum is different from that adopted by Speaker Reed. Mr. Reed himself counted in a quorum when members were present, but abstained from voting. Under the new rule a quorum may be counted the same as Speaker Reed did it, but the counting is to be done by tellers, one from each of the leading political parties.

Coffee culture is attracting enthusiastic attention in Mexico. There is much land in the republic on which excellent coffee can be grown, and there is steady inquiry for coffee plantations. If Mexico can establish a trade in coffee, then Brazil may enjoy all the revolutions she likes, and the world's breakfast will not be disturbed.

It gives the outside world deep pain to observe that even the army of the ... unequal ... within its own ranks. People who are going to teach the world a lesson ought not to quarrel among themselves.

Even at this time of the year cholera is raging among the dirty Poles of Poland.

STARTING OUT.

The First Meeting of the New City Council.

Mayor Oakley's Address to the Members.

Standing Committees Named by the Mayor.

Councilman Mohr's Resolution to Celebrate the Centennial of the Building of the Old Fort.

When the gavel of Mayor Oakley fell last evening a few moments before 8 o'clock calling the new municipal dads to order, every seat in the council chamber was filled, the aisles were crowded with spectators and many stood around the doorway entrance unable to gain admittance.

It was the first meeting of the new city council and everyone of the newly elected members were seen in their seats. Fifteen in all, they were arranged in a semi-circle, with the table for the newspaper reporters on the inner side, between them and the mayor's desk, and with the bright, intelligent, handsome faces of the pencil pushers to add brilliancy, tone and proper hue to the picture, the scene must indeed have been a pretty one to the large assemblage which was gazing on it.

In its article yesterday THE SENTINEL spoke in detail of the personnel of each of the members of the new council and it is not now necessary to repeat it. They had all chosen their seats and, with the councilmen at large in the center, responded quickly to their names as the new clerk, W. T. Jeffries, in a clear voice, called the roll.

The minutes of the last meeting of the late council were approved, and Mayor Oakley then read his inaugural address, as follows:

Gentlemen of the Council:
The city of Fort Wayne will, from now on, be governed by the law of 1893. It takes out of the hands of the council all the detail work of public improvements, so that in ... the council is legislative and not executive. ... [illegible]

I report to you that I have appointed the following gentlemen to act upon the various boards authorized by the charter:
Department of Finance—John H. Simonson.
Department of Law—Benjamin F. Ninde.
Department of Public Works—Thomas D. DeVilbiss, Levi Griffith, Willis Hattersley.
Department of Public Safety—Charles S. Bash, David N. Foster, Rudolphus B. Rossington.
Department of Public Health and Charities—George B. Stemen, Jacob Hetrick, Aaron F. Vandusick.

[illegible]

I will name the following standing committees:
Finance—Paul E. Wolf, George H. Loesch, Henry Hild, Robert J. Fisher, John Mohr, jr.
Rules, Regulations and Ordinances—George H. Loesch, Anthony Kelker, Charles Walbroath.
Judiciary—Anthony Kelker, Peter J. Scheid, Charles Walbroath.
Printing—Henry Hild, John T. Young, Henry Seemeyer.
Elections—John T. Young, Henry Hild, Charles Griebel.
Contracts and Franchises—William M. Glenn, Paul E. Wolf, John T. Young, Emmett H. McDonald, Peter J. Scheid.
Fees and Salaries—John Mohr, jr., William H. Tigar, William M. Glenn.
Streets and Lights—Charles Griebel, Barney Borkenstein, William M. Glenn.
Education—Emmett H. McDonald, William H. Tigar, George H. Loesch.

I would suggest that the council pass a resolution fixing the time of the meeting of the council and would suggest that twice a month be continued until such a time as it might appear that once a month would be often enough when it can be changed.

Hoping that earnest and honest work will be done by all and that we will all work with one object in view, the city's interest, I now declare this council ready for business.

The address of the mayor was greeted with applause, and upon its completion Councilman John Mohr, jr., moved that it be received and printed in the minutes, and on the second of Councilman R. J. Fisher it was so ordered.

A number of bills were referred to the committee on finance with power to act.

A remonstrance against the acceptance and paying for the grading of Force street, was referred to the board of public works.

Postmaster Rockhill petitioned the city to display the weather signals from the flag staff on the city building. Referred to the board of public works.

A remonstrance from citizens against the erection of a building by the asphalt company was referred to the board of health.

An ordinance requiring certain officials to give bond as provided by the new city charter was introduced, read a second time by title. The rules were suspended and the ordinance was read a third time, and then passed. The ordinance provides that officers shall give bond as follows: Comptroller, $25,000; members of the board of safety, $5,000 each; clerk to the three boards, $2,500; members of the board of health, $500 each; county auditor, $5,000; county treasurer, $500,000; city civil engineer, $2000.

The following resolution, presented by Councilman Mohr, was then read by Clerk Jeffries:

Whereas, The coming month of September will bring about the one hundredth anniversary of the construction of Fort Wayne by General Anthony Wayne, therefore, be it

Resolved, That the mayor shall appoint a committee of six councilmen, himself added to the committee, to investigate the feasibility and desirability of making the said celebration an occasion of special celebration, the committee to report to the council at its earliest convenience.

The resolution was unanimously passed and the mayor appointed the following committee to look after the matter: Messrs. John Mohr, Paul E. Wolf, R. J. Fisher, Henry Hild, E. H. McDonald and Peter Scheid.

A resolution introduced by Councilman Wolf making the council meetings on the second and fourth Tuesdays of each month was adopted.

The appointments of Mayor Oakley were, on resolution of Mr. Wolf confirmed.

The bond of Clerk Jefferies, in the sum of $5,000 as clerk, was read, and that, with all other bonds, was referred to the committee on finance.

The business having been completed, Mayor Oakley spoke briefly on the radical change in the city government, which requires careful thought and work in the start. He commended the different heads of the departments, and asked the co-operation of all citizens, and for himself he asked consideration and patience, and assured all that the effort of the officers would be to give the best possible government. The council then, on motion, adjourned.

An Alloy Which Adheres to Glass.

M. F. Walter has found that an alloy consisting of ninety-five parts of tin and five parts of copper adheres so tenaciously to glass that it may be employed as a solder to join the ends of glass tubes. It is obtained by adding the copper to the tin previously melted, agitating with a wooden stirrer, casting or granulating, and then remelting. It melts at about 360 degrees C. By adding from ½ to 1 per cent of lead or zinc, the alloy may be rendered either softer or harder, or more or less easily fusible. It may also be used for silvering metals or metallic thread.—Rev. Scientifique.

It Turned Out All Right.

"What has become of your first love, Fannie Jones, about whom you used to rave so much?" asked a New York gentleman of a friend whom he had not met for several years.

"Oh, she is married and happy."

"And how is it with you?"

"I am still happier—not unmarried."

A Dairyman's Opinion.

There is nothing I have ever used for muscular rheumatism that gives me as much relief as Chamberlain's Pain Balm does. I have used it for about two years—four bottles in all—as occasion required, and always keep a bottle of it in my home. I believe I know a good thing when I get hold of it, and pain Balm is the best liniment I have ever met with. W. B. Denny, dairyman, New Lexington, Ohio. 50 cent bottles for sale by druggists.

The Only Drawback

Gus De Smith—There is one drawback to the thought that saving is at hand.

Pete Amsterdam—What is that?

Gus De Smith—The insane prejudice against shooting baseballists and brass band performers.

Sure to Move Them.

Traveler—Deadlock in your state legislature, eh?

Native—Yes.

"Why don't you break it?"

"Wish we could."

"Nothing is easier."

"How?"

"Introduce a bill to raise salaries."

Stanton's Photos are the best.

PITTSBURGH, FORT WAYNE AND CHICAGO RAILWAY COMPANY,
PITTSBURGH, PA., APRIL 20th, 1894.

NOTICE.—The annual meeting of the stock and bondholders of the Pittsburgh, Fort Wayne and Chicago Railway company will be held at the office of the company, in the city of Pittsburgh, on Wednesday, May 16th, 1894, at 12 o'clock, noon, for the purpose of electing three Directors in the place of a like number whose term of service expires on that day.

17 11 JOHN J. HALEY, Secretary.

New Ship Canal.

There was recently submitted to the house river and harbor committee a measure for the survey of a canal route connecting Lake Superior with the Mississippi river. It is proposed by this plan to utilize the small streams at the source of the Mississippi as connecting links in a canal joining the Gulf of St. Lawrence with the Mississippi. Mr. Keifer has letters from the United States engineer officer stationed at St. Paul stating that the plan is entirely feasible. A private corporation has also been organized at Duluth to undertake the work. The projected canal is to have a width of 120 feet and a depth of twenty feet. It is also urged that it could be utilized to store the upper waters of the Mississippi and prevent the overflows which are so disastrous to the lower Mississippi.

WAS ALMOST BLIND

Little Girl had to be Kept in a Dark Room. Could not See to Feed Herself. Remedies and Doctors All Failed. Cured in One Week by Cuticura.

My little girl had very sore eyes. I tried everything, but nothing did any good. I took her to a doctor in Atlanta, who treated her for a year, but she kept getting worse. I brought her home; was almost out of heart; I just felt sure she would go blind. An old lady told me to try CUTICURA REMEDIES. I had no faith in them, as I had tried everything. I commenced on Saturday, and before the next Saturday her eyes were sound and well as any child's. She was almost blind, and had been kept in a dark room for more than a year; could not see to feed herself; and they have never been as yet the least particle sore or even looked red from that day until this, and it will be three years the first of May. They certainly cured her, and I think they are the greatest remedies out. I only used half a box of CUTICURA, one cake CUTICURA SOAP, and one bottle of CUTICURA RESOLVENT, so you see what wonders they did for my little girl. I have read of all of these most wonderful cures, but never before thought they might be true; but I know this to be the positive truth.

MRS. FANNIE GALWOOD, Canton, Ga.

CUTICURA WORKS WONDERS

CUTICURA RESOLVENT, the new blood and Skin Purifier and greatest of Humor Remedies, cleanses the blood of all impurities and poisonous elements, and thus removes the cause, while CUTICURA, the great skin cure, and CUTICURA SOAP, an exquisite skin beautifier, clear the skin and scalp, and restore the hair. Thus the CUTICURA REMEDIES cure every species of itching, burning, scaly, pimply, and blotchy skin, scalp, and blood diseases, from pimples to scrofula.

Sold throughout the world. Price, CUTICURA, 50c.; SOAP, 25c.; RESOLVENT, $1. POTTER DRUG AND CHEM. CORP., Sole Proprietors, Boston.
"How to Cure Skin Diseases" free.

BABY'S Skin and Scalp purified and beautified by Cuticura Soap. Absolutely pure.

HOW MY SIDE ACHES!
Aching Sides and Back, Hip, Kidney, and Uterine Pains, and Weaknesses, relieved in one minute by the Cuticura Anti-Pain Plaster.

COMMON COUNCIL.

Proceedings of the Adjourned Session of April 30.

A Full Report of the Business Transacted at the Last Session of the Retiring Council.

The common council of the city of Fort Wayne met in the council chamber Monday evening, April 30, A. D. 1894, in adjourned session. The Hon. Mayor ... in the chair, and ... clerk, at the desk and present the following members, viz:

Councilmen Bash, Conroy, DeVilbiss, Hanna, Kelker, Kranz, McClelland, Meyer, Meyers, F. C. Oakley, Pettit, Scheid, Skelton and Wolf.

Absent, ... Hazzard and Meyer, jr.

[illegible]

TRAIN WRECK.

Engineer Samuel Edgerly Killed Almost Instantly.

GILMAN, Ill., May 9.—The Northern express, a through Illinois Central passenger train, was wrecked at Buckley, nine miles south of here today by the train breaking in two. The engineer, Samuel Edgerly, was killed almost instantly. The fireman jumped and escaped. Several coaches were derailed, but none of the passengers were injured.

SHOT A NEGRO

Because He Addressed a Note to a White Girl.

WACO, Tex., May 9.—A dispatch received by Sheriff Burke states that a negro who addressed a note to a young white girl of West, was placed in the calaboose there. Masked men broke the calaboose door and took the negro out. While a rope was being made ready the negro ran, but was shot and mortally wounded.

HOW TO GROW FLESHY.

It is a Question of Food and Nothing Else.

AND EASILY UNDERSTOOD.

A Clear and Simple Explanation of the Entire Subject Drawn From Nature.

If we want to learn about this we must study nature. Let us look at the lower animals. The pig contains more fat in proportion to its weight than any other animal. What food does it eat? Starchy food. It can digest its food. The animals that eat starchy food are the heaviest in the world, as witness the elephant, the rhinoceros, the horse, the steer, etc.

It is well known that people who are too fat are always advised by doctors not to eat starchy food. The reverse is always true. If you want to get fat eat starchy food.

But digestion. That is often the trouble. Anæmics and dyspeptics cannot properly digest starchy food. It causes pain, eructations and distress. By eating starchy food that has been artificially digested, you can overcome that trouble. Paskola is such a food.

The specialists who first prepared Paskola made it of starch, because they know that starch is the only food that fattens. They made it of fruit because fruit is naturally health, and because the fruit of which Paskola is prepared, contains ferments which help to digest other food.

They thought Paskola would be a good food for thin people, but they little thought it would be such a wonderful success as it has become. What it does for one person always makes ten more buy it. It cures dyspepsia.

If you have the slightest doubt of this, read what follows:

PORTSMOUTH, VA., March 7, 1894.

The Pre-Digested Food Co., 30 Reade street, New York.

GENTLEMEN: I have for more than three years been afflicted with a very weak stomach, the most distressing symptom of which was a dreadful nausea after eating. In many cases I lost my meals entirely, especially breakfast as my stomach was weaker in the mornings than at other times. I have had a great many doctors of different classes prescribe for me, but none of them gave me any permanent relief. They all said I was suffering from indigestion. They would give me pepsin and a tonic to build up my debilitated system, but I did not experience any material benefit from any of them.

I became thin, very thin, in fact I was extremely emaciated. A physician recommended the use of the "Emulsion of Cod Liver Oil," but my stomach was so very weak that it seemed to aggravate the nausea and I could not continue it. In fact, nothing did me much good until I began the use of Paskola. Now my appetite is splendid, my food does me good. I have gained in flesh and have not suffered that dreadful nausea after eating one single time since the very first dose of the food I ever took. I really cannot say too much in favor of it and I sincerely hope that any one suffering as I did may take this means of relieving themselves, as it is a speedy and certain cure.

Yours very respectfully,
MRS. A. D. MOSELEY,
229 High St.

ELBERTON, GA., April 6, 1894.

The Pre-Digested Food Co., 30 Reade St., New York.

GENTLEMEN: Your sample of Paskola came safely to hand. I did not give it to others but took it myself. Was from home while taking it and did not weigh, but it is all you claim it to be, a flesh maker, aid in digesting other diets, and not only a food but very pleasant to take. With thanks, I am Most respectfully,
D. P. BELL, M. D.

Paskola may be obtained of any reputable druggist. A pamphlet on food and digestion will be mailed free on application to The Pre-Digested Food Co., 30 Reade St., New York.

DO NOT FORGET INITIALS OR NUMBER.

Go With Us Around The World.

We offer to our subscribers the most beautiful art work ever published at a merely nominal cost. This is an entirely new work, every plate being made especially for it. It is called

"FAMOUS PAINTINGS OF THE WORLD."

It is a collection of PHOTOGRAPHIC REPRODUCTIONS OF GREAT MODERN MASTERPIECES. It contains specimens of the great paintings of all art-producing nations and includes ONE HUNDRED OF THE MOST NOTABLE PAINTINGS at the

WORLD'S COLUMBIAN EXPOSITION.

It exemplifies the most ATTRACTIVE, INTERESTING, PURE and INSPIRING qualities of contemporaneous art. It contains a superb introduction by the greatest living novelist, GEN. LEW. WALLACE.

GEMS OF MODERN ART,

Reproduced by the perfected half-tone process, having the appearance of the most perfect photographs. So large a collection of photographs of paintings could not be purchased for less than $1,000, and yet these photographic reproductions are offered to the public at the insignificant price of TEN CENTS for each portfolio.

Every picture is described by the brightest and best of America's writers on art subjects. These descriptions are not technical or prolix, but bright and interesting.

The materials for this publication have been gathered out of the most Famous Galleries and finest Private Collections in the Old World and the New.

All eminent artists are represented, but the minor artists and young aspirants for artistic honors—whose names are not yet household words have not been overlooked. The Committee of Selection have often chosen a meritorious and pleasing picture by a comparatively unknown artist in preference to an unattractive subject by a painter of prominence. This magnificent art work is in itself a

Home Gallery of Famous Masterpieces.

Do not fail to secure the first portfolio at once. The first Portfolio contains sixteen reproductions of great paintings, and also the magnificent introduction by GENERAL LEW. WALLACE.

All the future portfolios will contain sixteen reproductions of MASTERPIECES OF MODERN ART.

How to Secure This Series: Clip three "Famous Paintings of the World" coupons from the third page of this paper and send them together with ten cents to the Portfolio Department of "The Sentinel" and the part called for will be sent to your address by mail.

The first three portfolios can be had by calling at the office.

The entire series consists of 20 parts, each part contains 16 photographic reproductions of great paintings of the world.

Address all mail to "The Sentinel" Portfolio Department, including no other business in portfolio orders. Write name and address plainly.

Miner & Dexter, Photographers, 44 Calhoun St, Fort Wayne, Ind.

For 10 Cts.

We will send you a trial size cake of the best toilet soap manufactured. Woodbury's Facial Soap is prepared by a specialist on skin diseases, and is recommended by physicians everywhere. It will make a clear smooth face from a blotchy skin. We will also send you free my book on the treating of skin and scalp diseases.

DEATH OF AN ENGINEER

William Burnison Summoned to His Eternal Home.

The Nickel Plate Officials on an Inspection Tour—Affairs in the Offices and Shops.

William Burnison died at Crestline yesterday at 11 o'clock, after a long and painful illness. The cause of death was some abdominal disease with which he was afflicted for five or six years. Two or three years ago he submitted to a surgical operation in hopes of being cured, but he never fully recovered, though able to resume his work and continue at it until a short time ago. Mr. Burnison was in the service of the Pennsylvania company for many years the past twenty-five as engineer. He has always resided at Crestline, but was well known in this city, as he ran in and out of here up to a few years ago, when he was assigned to yard duty in his native city. He leaves a wife and two children—a son and a daughter. The trainmen speak of him in highest praise and express sorrow for his untimely death, as he was only about fifty years old.

MINOR MENTION.

W. Honchen and C. Laible, of the Pittsburg shops, are sick and off duty.

The Pittsburg's summer time table will not go into effect until Sunday May 27.

John Casey, the well known Pittsburg machinist, is quite ill with rheumatism.

F. J. Kuch, a steam fitter in the Pittsburg shops, is off duty on account of sickness.

Conductor Stanley took his train out to lay for the first time this month. He is employed on the Nickel Plate.

Each clerk in the Pittsburg shops is entitled to ten days' vacation each year and the men are now arranging dates.

J. S. Chambers has been appointed master mechanic of the Illinois Central at the company's shops, in Clinton, Ill.

Brakemen T. B. Shanks, Lloyd Holzworth and J. Bressler, of the Nickel Plate, reported for duty yesterday after a short lay off.

Conductor Fitch, of the Lake Shore road, has parted with his luxuriant moustache, and presents a very youthful appearance.

The official report shows that the actual expenditures on the Pennsylvania lines, west of Pittsburg, last year, amounted to $4,023,047 91.

D. F. Crawford, assistant master mechanic of the Pittsburg road, will go to Chicago tomorrow morning to look over the company's electric light plant.

The Pennsylvania Railroad company is making extensive improvements at Elizabeth, N. J., among other things erecting a new passenger station to cost $70,000.

Machinist David Judy was taken ill this morning and had to quit work. Frank O'Brien, an apprentice, is also sick. Both are employed in the Pittsburg shops.

Louis Donough, traveling passenger agent of the Cincinnati, Hamilton and Dayton road, was in the city over night, leaving on the south bound Muncie train this morning.

Manager C. L. Dasseler, of the Pennsylvania base ball club, has so far booked the following games: Celina, Ohio, May 30 and 31, and Findlay, Ohio, June 1 and 2.

Mrs. H. J. Gardner, wife of the Pittsburg passenger conductor, was called to Bucyrus, Ohio, last evening by a letter informing her of the serious illness of her mother.

The train dispatchers on the Michigan division of the Vandalia will have their headquarters removed from Terre Haute to Logansport as soon as rooms can be fitted up for offices.

Rev. Livingston Willard, who died in Greenwich, Conn., last week, was in his early life a civil engineer and assisted in the construction of the Lake Shore road across Northern Indiana.

Jacob Hess, machinist, and Henry Geerken, boilermaker, started out this morning on a boiler testing tour of the west end of the Pittsburg road. They will be absent about two weeks.

Senator John Patton, jr., Senator Stockbridge's successor, came down from Kalamazoo last evening and took No. 8, on the Pittsburg, for Washington. He was accompanied by his family.

Traveling Salesman J. E. Noble, of the Bass works, is at New Castle, Pa., where the contract for a 1,250 horse power compound Corliss engine will be let this week. Mr. Noble hopes to secure the contract.

Messrs. Krudop & Franke, contractors and builders, are putting a small Bass gas engine into their carpenter shop on East Lewis street. Machinist Tom Prichard has charge of the work of setting up the engine.

A. J. Cassatt, vice president of the Pennsylvania Railroad company, is one of the incorporators of a company which proposes to build a bridge across the Delaware river to connect Philadelphia and Camden, N. J.

Peter Lill, a section hand in Foreman James O'Leary's gang, of the Pittsburg, was injured by a steel rail falling off a push car and striking him at 7:30 this morning. The man was taken to his home at 147 East DeWald street, where Dr. George C. Stemen attended him. His right limb, below the knee, and his heel were badly bruised, but no bones were broken.

Henry Hille, a carpenter, has taken a position with the Wabash, under Foreman Hiram Poyser.

A. D. Adams, of Peru, general roadmaster of the Eastern division of the Wabash, was in the city yesterday.

Brakeman R. E. White reported for duty today after a few days' absence. He is employed on the Nickel Plate.

The American Railway union will have a meeting this evening in K. of L. hall. The organization is rapidly growing.

Mr. and Mrs. W. F. Brunner, of Indianapolis, were guests of friends in the city last night. Mr. Brunner is district passenger agent for the Pennsylvania company at Indianapolis.

The greatest ball game of the season will take place on the grounds south of the electric light works next Saturday afternoon. The nines will be composed of clerks at the electric light works, the auditing department, vs. the purchasing department. Betting is about equal.

The valve motion of all the class "O" passenger engines on the Pittsburg road are being overhauled and improved. Under the new system the engines perform their duties more satisfactorily than under the old.

Jerry Cummings, the well known passenger brakeman on the Pittsburg, has moved his family from the corner of Clay and Charles streets into the house at No. 41 Baker street. Jerry lived over five years on Charles street.

The insurance department of the Brotherhood of Locomotive Engineers has been incorporated under the title of the Locomotive Engineers' Mutual Life and Accident association. The president is A. B. Youngson, of Cleveland, Ohio.

The boats of the Lake Michigan and Lake Superior Transportation company are to carry flour between Duluth and Benton Harbor, turning the business over to the Big Four at Benton Harbor. Heretofore this business has gone via Detroit and Toledo.

General Superintendent A. W. Johnson and Superintendent of Motive Power John McKinzie, of the Nickel Plate, arrived in the city on a special train at 5 o'clock last evening. They spent the night here and at 10 o'clock this morning left on a special for Chicago.

Chap Rhodes, the gentlemanly colored passenger brakeman on the Pittsburg, is just entering the twenty-third year of his service with the company. Chap has improved his opportunities to accumulate a little wealth and is the owner of nice property on East Wayne street.

The report was circulated in certain quarters that the little son of Blacksmith John Morning, of the Pittsburg shops, was suffering with smallpox, when in fact the child is only slightly ill with a cold. Mr. Morning is very indignant that such a story should be circulated.

The state encampment of the G. A. R. of Ohio will be held in Canton, May 29. Several Fort Wayne citizens who served in Ohio regiments are talking of attending the meeting. The Pennsylvania road will sell tickets from all points in Ohio at reduced rates. Our citizens will probably join the Van Wert delegation.

The Fort Wayne Building, Loan and Savings association, whose membership is chiefly composed of Pittsburg shopmen, will hold its annual election at the City Y. M. C. A. hall this evening. There are now seventeen series of this association and each year sees one series expire and one or more started. No single organization has done more towards building up this city than this loan association.

Dr. J. H. Barnfield left at noon today for Richmond, Ind., where he will be married to Miss Slater at 8 o'clock this evening. Immediately after the wedding Dr. and Mrs. Barnfield will depart for the east on a two weeks' tour, which will include a visit to New York, Philadelphia and Washington. They will also spend a few days with the doctor's mother at Williamsport, Pa. When they return to this city they will stop for a while at the Wayne. During Dr. Barnfield's absence Dr. J. H. Caraway, of Pittsburg, will look after the affairs of the Pennsylvania Voluntary Relief association.

East-bound shipments from Chicago during the last week amounted to 55,779 tons, against 57,289 for the preceding week, and 52,526 for the corresponding week of last year. The roads carried tonnage as follows: Michigan Central, 4,922; Wabash, 5,323; Lake Shore, 6,605; Fort Wayne, 7,380; Panhandle, 7,091; Baltimore and Ohio, 2,822; Grand Trunk, 7,757; Nickel Plate, 6,816; Erie, 4,940; Big Four 1,730. Shipments were made up of the following articles: Flour, 3,014; grain and mill stuffs, 25,211; dressed beef, 10,000; provisions, lard, etc., 8,686; butter, 1,161; hides, 1,408; lumber, 5,433; miscellaneous, 1,630. Lake shipments for the week were 101,989 tons, against 69,051 for the week preceding.

For the Miseries of Dyspepsia,

And they include almost every unpleasant feeling that belongs to physical disease and mental wretchedness, this potent medicine, Simmons Liver Regulator, is a certain and speedy cure.

NOTES OF THE MODES.

SPRING AND SUMMER COSTUMES FOR WOMEN.

The Tea Gown of 1894 a Subject for the Poets—Hints About Children's Dress—Miscellaneous Gossip About Styles and Fads.

WHY DOES NOT some latter-day poet of the minor description invoke his muse in praise of the tea gown? asks a writer in the Queen. Unquestionably it deserves the honor, evolving, as it does, grace from every fold and being impregnated with the essence of femininity. Take, for example, a white gown, made of the softest white-spotted satin, striped with lines of insertion, with lace falling about the shoulders and on the hips. The most aggressively masculine woman could not fail to be influenced by its daintiness. Bands of the insertion, alternating with gores of the silk, appear from the waist to the hem, while there is a soft drapery, suggestive of the pannier, and the sleeves are loose and full, allowing a peep at a rounded arm, the rounded arm of course being taken for granted.

This is eminently adapted for the slim figure, while those of more liberal proportions might adopt another style, which is made in a blue moire of a novel kind, closely striped in lines, with a quaint bib-like collar round the shoulders, outlined with lace, the sleeves full to the elbow, and tucked tightly to the wrist. At the neck and below the waist appear bands of magenta-striped velvet ribbon—a striking note of color this. Crepon gowns, which would do graceful duty at breakfast time, are trimmed with insertion, and liberally trimmed, too.

An ideal gown fit to grace a trousseau has a front and back made of horizontally placed tucks of white lisse, alternating with bands of gui-

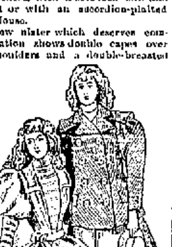

SOME SPRING AND SUMMER DRESSES.

pure, while over the shoulders fall full, loose, winglike draperies of fanciful silk crepe. More elaborate still, but no less beautiful, is a gown of green brocade with a basket-work design strewn with pink rosebuds. Panels of accordion plaiting in pale green silk crepe appear from beneath the arms to the hem, the sleeves are formed of three deep frills of the crepe, and from the shoulders hang ribbon volants, tying at the top, brace fashion.

Tea jackets there are of a charming variety. One in pink watered silk boasts a vest of cream satin, draped with lace, turning back with broad revers and fastened on the bust with a rosette and long streamers of black ribbon. Black velvet appears, buckled with steel as the trimming on the china silk jacket, also elaborately trimmed with lace.

The plain cloth or tweed dress always counts its admirers by the hundreds, indeed, I might write thousands. A capital outfit, which lends itself to a variety of waistcoats and shirts, is a short bodice cut to simulate a man's dress coat, with a turndown collar, rounded over the chest. This buttons neatly into the waist and is completed by a plain skirt, and can be worn either with a stiff-fronted white shirt, when it is eminently manly in its suggestiveness, with a soft lace bow and cravat or with an accordion-plaited silk blouse.

A new ulster which deserves commendation shows double capes over the shoulders and a double-breasted

CHILD'S DRESS AND COAT.

front, and on this again appears this new shaped back, which is also to be found on cheviot coats, long, short, and three-quarter length. One example which is especially attractive is in a light shade of drab, has a Chesterfield front, and, though single-breasted, boasts broad revers. The new waistcoats include some of worsted material with a silk spot. These are to be seen in various colors and combinations of colors, while others there are of Tattersall in varied checks, and others again are of a washing drill, a light shade of powder blue among these, spotted with white and red, having special attractions.

An ideal dress for a little girl has a muslin guimpe striped with embroidery, to be worn beneath a tight-fitting cloth or serge dress, absolutely simple in detail. This is becoming to every child from the age of 3 to the age of 10, always providing that she be slim. Then for her plump sister the muslin guimpe appears to advantage beneath an Empire bell, from which hangs accordion pleating. A pretty dancing dress is made of mauve chiffon veiling in this latter style, the hem being trimmed with double rows of Valenciennes insertion, the Empire belt outlined to match. A pretty costume is of navy blue, the trimmings of light blue braided in white, and the same style also looks well in cheviot, with the half sleeves and the vest in some contrasting color in velvet. A boating dress which excites admiration is made of navy blue serge, cut into a V to the waist in the front, and sleeveless, exhibiting an under bodice falling with a large turndown collar made of red cambric spotted with white.

Fried Ice Cream, a Philadelphia Fad.

A Philadelphia firm makes a specialty of fried ice cream, which is pronounced delicious by all who taste it. A small, solid cake of the cream is enveloped in a thin sheet of pie crust, and then dipped in boiling lard or butter long enough to cook the outside to a crisp. Served immediately, the ice cream is found to be as solidly frozen as when it was first prepared. The process of frying is so quickly accomplished and the pastry is so good a protector that the heat has no chance to reach the frozen cream.

Baked ice cream which has a meringue top is another caprice of cooks that is toothsome, though this tampering with a delicacy that is perfection when it is in its perfected, normal condition seems unnecessary. Good ice cream is as good as can be.

Speaking of the dish, a woman recalled the other day the fact that it was first introduced at the national capital by Mrs. Alexander Hamilton. She used to tell with amusement of the delight with which President Jackson first tasted it, and how he promptly decided to have ices at the executive mansion. Accordingly, guests at the next reception were treated to the frozen mystery, and afforded considerable fun to the initiated by the reluctance with which they tasted it. Those from the rural districts, especially, first eyed it suspiciously, then melted each spoonful with the breath before consuming it. Their distrust was soon removed, however, and plates were emptied with great rapidity.

She Settled the Fate of That Hat.

The unfortunate young man had moved his hat from place to place in the pew, but always had to move it again. His pew seemed particularly popular, and there was no abiding spot for that piece of headgear, which happened to be a shining silk hat of the most approved shape. Finally, when he was tightly wedged into one corner and there seemed to be nothing for him to do but to hold the hat tenderly on his lap for the rest of the service, he had an inspiration. The pew in front was still empty. He leaned over, gently deposited his cherished covering on the cushioned seat, and gave himself up to pious reflection.

By and by the owners of that pew made a late entrance. The youth gazed at them with interest. A pretty young blonde led the way, and in looking at her fair hair and blue eyes he forgot his hat. She, conscious of his gaze, blushed properly and cast down her eyes in a maidenly way. Then she sat down, and there was a crushing, grinding sound. She shot up again, and so did the young man. And together they surveyed the ruins of that shining silk hat, while the choir vociferously sang "Cover My Defenseless Head."—New York World.

MEDICAL SCIENCE.

THEORY OF MIND MICROBES MAY BE SOUND.

Men Who Dive Deep Into the Mysteries of Human Existence Are the Most Competent to Judge—Miscellaneous Notes of Progress.

IT IS CLAIMED BY some of the more advanced of modern writers that excesses of all sorts are produced by a morbid condition of the mind, brought about by the presence of microbes in undue numbers. From tuberculosis to temper, from murder to melancholia, these theorists declare that microbes are the cause of all conditions anywhere outside of the normal. And may be the day will come when these people will be found not so far from the right as scoffers now profess to believe. Those who dive deep into the hidden mysteries of existence find many quaint and curious things not seen by the average eyes. There is an invisible, intangible, mental as well as a material microscope, and they who understand its handling and adjustment learn much of interest, much that is suppressed because of the storm of ridicule that it would provoke, and which for this reason they care nothing about exhibiting to the outer world.

It is no secret to many persons of extreme temperament that a thought microbe can be so increased and multiplied that it dominates not only the entire mental but physical system. There are cases where the memory takes possession of the individual; a sudden flash lights the fire of thought; a suggestion opens the door of the past, and all conditions are right for an absolute overwhelming of the entire being with this living tide. And many doctors would at once diagnose the malady as malaria, nervous fever, depression of the vital forces, or in some cases inflammation of the brain. This state of affairs, simple enough at the outset and characterized by a little fever, a slightly accelerated pulse, a trifling flush of the cheeks and like indications increase with rapidity until the sufferer is in a condition bordering on mental distraction. The doctor comes in, prescribes draughts and a fever regimen, reduces the diet, orders cooling applications and goes away much worried lest the patient runs into brain fever or some new complaint with an unpronounceable name and a fatal termination.

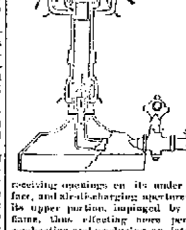

Had this professional adviser of the sick and suffering the power to use the mental microscope, it would take him but a short time to discover that the malady was not in any sense physical or dependent upon any of the bodily functions. He would find hordes of bacilli, disappointment microbes, unsatisfied ambition germs infinitesimal in themselves but in the aggregate forming an immense army of devouring adversaries slowly consuming the life forces of their helpless victims. Just what they feed upon no one has as yet been able to determine; but that they speedily sap the vital forces, those who have suffered in this way know but too well, although they may not know the cause.

If, instead of morphia, tonics and anti-malarials and anodynes, they could take the suffering one from present environments, start a new train of thought, awaken other interests stronger for the moment than the invading forces, and bring back the departed delights or some that would to an extent fill their places, the dealing out of drugs would be superseded by an entirely different form of practice.

But the day of this enlightenment has not yet come. May be in the far off hereafter our doctors will be philosophers as well, and instead of confining themselves strictly to the material, they will search for the hidden sources of the sorrow and care that more than any other cause destroy the best and truest members of the human family.

A Heating Gas Burner.

This is a burner of the Bunsen type, but just outside of and surrounding the flame is held a metal tube with air-

receiving openings in its under surface, and air-discharging apertures in its upper portion, impinged by the flame, thus effecting more perfect combustion and producing an intense heat. The improvement has been patented. On the gas supply tube, fitted in a suitable base, is a conical nozzle, surrounded by the absorbent lower end of a mixing tube, near the bottom of which are air apertures, while in its upper end is inserted the threaded portion of the burner. The latter consists of a casting with several apertures through which the gas issues [illegible] the top of the casting is formed by a disk which rests upon the legs and is secured in place by screws. The surrounding air supply tube is supported by right-angled rods, and is preferably of oval section, although it may be circular or triangular in section, and its lower air-receiving openings are larger than the discharge apertures. The flame, impinging upon this hollow ring or tube, raises it to a high temperature, and correspondingly heats the air discharged therefrom to mingle with the gas of the flame.

The Gasoline Carriage.

At the recent tie-up of all the Steinway street railway cars at Long Island City, all connection with New York was entirely cut off, only the Daimler Motor company was equal to the emergency, putting into service one of their motor carriages and connecting its two offices in Steinway and New York in the latest style. The carriage made quite a sensation as it sped along without the use of horses or electricity.

A Pointer to Travelers.

While Mr. T. J. Richey, of Altona, Mo was traveling in Kansas he was taken violently ill with cholera morbus. He called at a drug store to get some medicine and the druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy so highly he concluded to try it. The result was immediate relief, and a few doses cured him completely. It is made for bowel complaint and nothing else. It never fails. For sale by druggists.

A Popular Remedy.

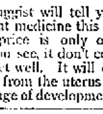

The promptness and certainty of its cure have made Chamberlain's Cough Remedy famous. It is intended especially for coughs, colds, croup and whooping cough, and is the most effectual remedy known for these diseases. Mr. C. B. Main, of Union City Pa., says: "I have a great sale on Chamberlain's Cough Remedy. I warrant every bottle and have never heard of one failing to give entire satisfaction." 50 cent bottles for sale by druggists.

It Don't Cost Much

To get well.

Only a dollar or two and a little faith.

The case of Mrs. Lillie Meyer, of Brooklyn, N. Y., is an example. Some time ago she began to feel sharp pains in her abdomen, with bearing-down feeling and pains in her back. She tried doctors, and got no relief.

MRS. LILLIE MEYER.

At last, a friend told her of *Lydia E. Pinkham's Vegetable Compound*, and, after using it, the pain left her, and menstruation now comes without suffering.

Your druggist will tell you what a great medicine this is, and the price is only one dollar. You see, it don't cost much to get well. It will expel tumors from the uterus in an early stage of development.

NEWS NOTES.

Judge Lowry has gone to Galveston, Texas, on legal business.

Tramps and vagrants are flocking into the city from all quarters.

Another skeleton of an Indian was dug up on West Washington street this morning.

Judge Gengler, of Garrett, was in the city last evening to attend the meeting of Elks, he being a member.

August Reverfordon has gone to Chicago and from there will go to Milwaukee, where he will locate in the drug business.

Mrs. A. C. Leichty, of Antwerp, was in the city yesterday for the purpose of having her nose operated upon for tumor by Dr. Dills.

S. G. Smith, president of the Garbage Crematory company, of New York city, is here to inspect the new crematory built by his company.

C. F. Pfeiffer has sold to Martin A. Schele, the cigar manufacturer, a handsome new house on West Fourth street. Consideration, $1,700.

The F. X. M. dramatic club will present "Down We Go," in one act, and "Never Too Late To Mend," in three acts, at Library hall this evening.

The Rev. Father Oechtering, of St. Mary's church, will celebrate the silver jubilee of his accession to the orders of priesthood, on the 21st of this month.

Messrs. Cole and Douglas, of Sturgis, Mich., are making a tour to San Francisco on their bicycles and are in this city. They will be entertained this evening by the Fort Wayne Cyclo club.

Mrs. Frank Mensch, wife of the well-known and popular grocer, left last night for New York on a visit. She was accompanied by her three children.

At the regular meeting of the Elks last night the following new members were initiated: C. G. Thieme, C. Flaugh, H. S. Harrol, Capt. John Houser and A. L. Friend.

The Ladies' Sewing society of Queen Esther lodge will give an entertainment and ice cream social at Armory hall, White's bank, May 12. Music by Prof Houlton's orchestra.

Miss Ada Maddern and Miss Lulu Smith, who have been guests in this city for some weeks, left for their homes in Toledo yesterday. They will spend the summer in Cincinnati.

At Battle Creek, Mich., yesterday the Fort Wayne base ball club won, the score standing 9 to 8. The club is making a gigantic effort to redeem itself. Another game is being played today.

Dick Townsend last evening paralized the force of street cleaners under Street Commissioner Mungen. The men were working in front of the Randall when Dick sent them out a box of cigars. In less than three minutes every laborer was puffing away violently.

Thomas DeVilbiss, chairman of the board of public works; Col. D. N. Foster, of the board of public safety; Comptroller Simonson and A. J. You, clerk of the two boards, are all at Indianapolis today, inquiring into the workings of the new city charter in its practical form.

A large number of German carp have found their way into the St. Joe river from ponds which have been overflowed. A day or so ago one weighing thirteen pounds was killed with a club in the shallow water along the river by Romy's addition. The fish were seeking the shallow water to spawn.

The anniversary of the death of Madam Blavatsky, called by theosophists "White Lotus Day," was celebrated last night in the parlors of the Theosophical society. A. A. Purman gave the opening address in which he reviewed the life of Madam Blavatsky. Mrs. Julia Jackson followed. Others who took part were J. D. Bond, C. Jackson and Dr. A. P. Buchman.

A few days ago a young man giving the name of Tompkins arrived at the Lake Shore hotel in Bloomingdale and registered. He said he was on the look out for work. He did not seem to make any great effort to secure work and Monday night entered the room of the clerk and stole a fine gold watch and a ring. The sheriff has been notified but has no clue to the whereabouts of the thief.

At the Pantathlon athletic contest held at Chicago yesterday Fort Wayne came in for a good share of the honor. In the potatoe race the Indiana young men scored the highest grade, and throughout the Hoosiers won applause by their excellent work. Wm. Shepard, of this city, and Grame, of Terre Haute were the shining lights of the aggregation and carried off first and second prize, respectively, each winning a gold badge. Shepard scored 437.5 in the five events. Secretary McCaughey was one of the judges.

Fresh Hay Butter Down.

DEGREE OF HONOR.

Mrs. N. Conover Made a State Officer at Terre Haute.

The First Annual Meeting of the Grand Lodge—Westminster Seniors Entertained at Luncheon.

The first grand lodge of the Degree of Honor (the woman's auxiliary of the Ancient Order of the United Workmen) ever organized in Indiana was instituted at Terre Haute yesterday. Nineteen lodges, with a total membership of 900, were represented by thirty-eight delegates. The following officers were elected:

Past grand chief of honor, Miss Luella Woods, of Evansville; grand chief of honor, Miss N. G. Smith, of Greencastle; grand lady of honor, Mrs. N. Conover, Fort Wayne; grand chief of ceremonies, Mrs. W. T. Boyce, Indianapolis; grand recorder, Miss Anna Eisman, New Albany; grand receiver, Mrs. Jott Williams, Wadesville, Ind; grand usher, Mrs. Emma Curtner, Hazelton; grand inside watchman, Mrs. R. C. Baxter, Auburn; grand outside watchman, Miss Lillie Park, Terre Haute; grand medical examiner, Dr. N. G. Smith, Greencastle.

Mrs. E. B. Smith and Mrs. A. S. Coverdale were appointed on the committee on laws.

The next grand lodge meeting will be held at Fort Wayne in 1896. A public reception to the delegates was held in the opera house at Terre Haute last night.

At a meeting of the grand executive board of the A. O. U. W. of the state, together with the finance committee, it was decided to divide the state into districts and put organizers in the field at once.

Mrs. Conover, who was elected grand lady of honor, is a member of Summit City lodge, Degree of Honor, No. 2, of this city and is a past chief of honor of that lodge. The contest at the state meeting for the position to which she was elected was quite animated and there were a number of candidates for it.

THE DAY'S SOCIETY GOSSIP.

Mrs. Gottlieb Berger is quite seriously ill.

Mrs. Walter Olds, of Chicago, was in the city yesterday.

Mrs. Mable Clayton, of Prospect avenue, is very ill.

Master Ralph Chapin, who has been quite seriously ill, is now much better.

Mrs. Arnold, of Huntington, is the guest of Mrs. A. L. Randall, of Maple avenue.

Mrs. Elizabeth Hanna, of East Berry street, has returned from a week's visit in Chicago.

Miss Lottie Holliday, of Spy Run avenue, will entertain the M. P. club this evening.

Mr. and Mrs. Samuel D. Hanna, of Auburn, are rejoicing over the arrival of a baby girl.

Mrs. Hout Davis, of Kokomo, is visiting Mr. and Mrs. C. A. Ellenwood, of 69 LaSalle street.

The M. P. T. club will be entertained this evening by Miss Stella Soliday, of Spy Run avenue.

Mr. and Mrs. J. M. Barrett left this morning for French Lick, Ind., to spend a few days.

Mr. M. N. Plumadore and daughter, Camilla, are visiting Mrs. Plumadore's parents at Camden, Ind.

Miss Lulu Menze entertained a number of friends last evening at her East Washington street home.

The Laetitia club will meet tomorrow evening with Miss Emma Becker at her home on West Berry street.

An entertainment and social hop at Armory hall Saturday night. Prof. Houlton's orchestra furnishes the music.

The English club will meet Friday afternoon of this week with Mrs. A. A. Purman at her home on West Wayne street.

Mr. and Mrs. J. C. Horton and Master Gates Horton are now at home in a pleasant suite of rooms at 168 East Jefferson street.

Mrs. T. L. Staples will leave the city soon to spend the summer with relatives and friends at her former home, in Chatham, Canada.

A delightful surprise was tendered Mrs. Charles Schofield Monday evening, at her home, No 10 Breck street, in honor of her twenty-eighth birthday. Music and games were the chief amusements. Those present were: Messrs. and Mesdames Schofield, Engle, Wren, Merriott, Angell, Brown, Pape, White, Crutchfield, Elliott, Misses Lizzie Pape, Lizzie Bailey, May Hennessy, Ella Wren, Mary Dolan, Stella Wren, Grace Angell, Messrs Charles Braithwaite, Ollie Wren, Clyde Angell.

The Woman's Auxiliary of Trinity church will give a "missionary tea" at the Parish house Thursday evening from 6 to 8 o'clock. All are most cordially invited.

Mrs. Fred Schrader, of East Jefferson street, will leave the city in a few days to spend the summer with her parents at her old home, in Eden Valley, N. Y. Mr. Schrader will be the guest of his wife and her parents during the summer vacation of the public schools.

A most dainty and charming affair was the luncheon given this afternoon at 2 o'clock by Mrs. D. W. Moffat at her home on East Berry street in honor of the young ladies of the graduating class of the Westminster Seminary. The table was daintily decorated with sweet peas intermingled with feathery asparagus vine. The guests were Misses Mamie Dickinson, Kathleen Hughston, Stella Mossman, Edith Yarnelle and Helen Keil.

Yesterday morning, at 9 o'clock, at St. Paul's Catholic church, occurred a very pretty wedding, at which the Rev. Edward Koenig, pastor of St. Paul's officiated. The contracting parties were Mr. John Horsch, a prosperous Chicago young man, and the bride, Miss Rose, the pretty daughter of Mr. and Mrs. Joseph F. Ballman, of Nirdlinger avenue. The bridesmaid was Miss Tracy Ballman, a sister of the bride, and the best man was Otto F. Gunke. A reception was tendered the young couple at the home of the bride last evening. Mr. and Mrs. Horsch will reside in Chicago.

Yesterday Miss Carrie Hughes observed her birthday anniversary and last evening a number of her friends gathered at her home, gave her a most agreeable surprise and celebrated the occasion in a most delightful manner. Miss Edith Yarnelle furnished the music for a dance program of fourteen numbers and late in the evening the invaders served a dainty luncheon. The guests were Misses Mary McDonald, Lulu Barrows, Venie Wood, Gertrude Morris, Julia Smyser, Margie Hanna, Eva Hossell, Myrtle Strack, Messrs. George McDonald, Ralph Yarnelle, Fred McCracken, Charles Lang, Guy Bell, Ronald Purman and Herbert Lang.

Last evening Mr. and Mrs. R. E. White, of 405 West Main street, most delightfully celebrated their tin wedding by entertaining about eighty of their friends in a royal manner. The affair was in the nature of a surprise, being arranged without the knowledge of Mrs. White, who was not at home when the guests arrived. On her return she was completely surprised to find the house filled with guests. The presents received by the host and hostess consisted of many articles of tin ware useful and ornamental as well. A handsome lamp was presented by the Col. E. S. Walker camp 159, S. of V., of which Mr. White is a popular member. When everyone had somewhat recovered from the excitement an elaborate supper was served, and later cards and dancing were indulged in. As Mrs. White's birthday anniversary is today, the celebration was continued until an early hour this morning and the occasion was made one long to be remembered. Among the guests were Mrs. Ed Gregg and Mrs. J. M. Wells, of Bellevue, Ohio. Several letters of regret were received; one in particular from the parents of Mrs. White, who were unable to be present. Mr. White is a brakeman on the eastern division of the Nickel Plate and is very popular in railroad, as well as social circles.

Stanton's Photos are the best.

Influence of Horticulture.

This was the subject of a most interesting and instructive paper lately read by Mr. Harper, custodian of the Aberdeen Duthie park, to the members of a workingmen's guild in Aberdeen. After a historical introduction, in which he referred to the Garden of Eden, Mr. Harper said the floralia the ancients survive to-day in the "battle of flowers" to be seen in Algeria and Italy. Cleopatra paid £200 for the roses employed at one banquet. The first school of gardening was the Jardin des Plantes at Paris, yet the science of horticulture was less generally known in France than in this country. Modern British gardening received its first stimulus in the reign of Henry VIII. It changed under Charles II., again under George II., and in the reign of George III. was profoundly affected by the introduction of flowering plants from North America. The establishment in 1824, of the experimental gardens at Inverleith Row, Edinburgh, did a great deal for gardening in Scotland. In our own time horticulture is slowly but surely influencing our people to a more correct taste and appreciation of beauty. The parks are being more appreciated every year; a neat flower bed commands the attention and respect even of the vulgar. Horticultural exhibitions are of the greatest use to those engaged in horticulture. Mr. Harper spoke strongly of the work of the guild in the culture of plants in houses. In the child's love of flowers we have the voice of nature; it falls into decay as vice and selfishness harden the tender heart. Speaking of open spaces in the heart of the city, Mr. Harper said they could not fail, if well kept, to be a great benefit to the whole community. A modern feature is the tasteful arrangement of autumn foliage, a form of decoration at once effective and inexpensive.

How Women Buy Cigars.

Pete Amsterdam—May I offer you a cigar?

Mountmorris Parke—Thank you, but it is very seldom that I indulge.

Pete Amsterdam—Then smoke one of these and it will cure you entirely of the habit. My wife bought me a whole box of them as a birthday present.

Wanted—Boys between nine and eleven years old for Trinity Episcopal church choir; will be taught free and paid when qualified. Apply from 2 to 4 o'clock Thursday, May 10, at parish house, corner Fulton and West Berry.

Pay your Natural Gas bills tomorrow and save the discount.

THE FATES

SO DECREE IT!

The First National Bank has a bona fide lease on our rooms and want possession we can at best only hold on for a very short time, they are bound in the end to get what they are after and we might foolishly cut off our nose to spite our face and cause them some trouble and of which would mean oceans of expenses to us.

Our stock which was a large one is still too large to sell in bulk, therefore we shall make extraordinary effort to reduce it in a short time so that we can dispose of it in bulk and end this unfortunate state of affairs, this means additional sacrifices, and we are making them. You can well afford to buy all the Clothing, Hats, Caps and other wares you need from us for a year ahead. Such opportunities come rarely; speculating on others misfortunes means Dollars to you and losses to us.

THE C. O. D.

73, 75, 77 Calhoun Street.

IT RUNS EASY!

THAT is what they all say when they first mount a TRIBUNE. There is reason for this, and they are right. Using good material will not alone make a good bicycle, there must also be fine and accurate workmanship; the bearings must be perfect, the chain must fit the sprockets, and all friction must be avoided. It takes time and costs money to build bicycles in this way, but they give the rider satisfaction. **TRIBUNES are built for the Rider** and not for jobbing houses. Insist on having a TRIBUNE; there is not so much profit in it for the dealer, but there is more value in it for you.

Think It Over. --
